Second Grade Summer Mathematics Review #2

Name: _____

2-1 A teacher has 65 markers. Thirty of them are read and the rest are blue. How many blue markers does he have? Show your thinking.

2-2 Starting from left to right:

A. Color the fifth square red.
B. Color the third square blue.
C. Color the ninth square green.

2-3 What is the number?

It is > 500.
It is < 900.
It has 5 ones.
There are 3 less tens than ones.
The number of hundreds is equal to the sum of the tens and ones.

_____ ANSWER

2-4 The answer to a question is 100. What might the question be?

2-5 Complete the patterns:

1. 50, 45, 40, 35, _____, _____, _____
2. 112, 110, 108, 106, _____, _____, _____
3.

Second Grade Summer Mathematics Review #3

Name: _____

3-1 Greg had 35 markers. He gave 19 to Ben. How many markers does Greg have now? Show your thinking using numbers, pictures, or words.

3-2 Starting from left to right:

Second Grade Summer Mathematics Review #5

Name: _____

5-1 Draw a line from the shape to the correct word.

cube sphere cylinder

5-2 Two classes are having relay races. There are 50 children altogether.

1. How many 5 person relay teams can be made? _____

2. How many 2 person relay teams can be made? _____

5-3 Which math fact does not belong in the group?

1.	2.	3.	4.	5.
8 + 7 = 15	15 - 7 = 8	6 + 8 = 14	7 + 8 = 15	15 - 8 = 7

Why?_____

5-4 Draw a line of symmetry in each shape.

Second Grade Summer Mathematics Review #9

Name:_____

9-1 Circle the shape that shows a line of symmetry.

A. B.

9-2 Rachel has some pencils. Nicholas gives her 18 more. Now she has 42. How many pencils did Rachel start with? Show your thinking using numbers, pictures, or words.

9-3 What is one way that a rectangle and a rectangular prism are similar? What is one way that they are different?

9-4 Mark saw 16 yellow birds and Ashley saw 15. How0 612 792 reW*nq0 g48.96 333.41 514.18 0.48001 ref*48.9

Second Grade Summer Mathematics Review #10

Name:_____

10-1 You would like $\frac{1}{8}$ of a pizza. Circle your piece.

A. 
B. 
C. 
10-2 Circle the figure that is a cube. Explain your answer.

A. B. C. D.

10-3 Mr. Jones has 84 goldfish in his pet store. He sells 21. About how many goldfish does he have left? Circle your answer.

About 60 About 40

10-4 A rectangular prism has how many faces? _____ edges? _____

10-5 Chris has 22 books. Ryan has 11 fewer books than Chris. How many books does Ryan have? Show your thinking.
