

Additional benefits included in your plan:

Prevention First – Visit to the dentist for diagnosis or preventive services will be covered at the annual maximum.

Healthy Smile, Healthy You® – Provides additional cleanings and/or fluoride for members with certain health conditions.

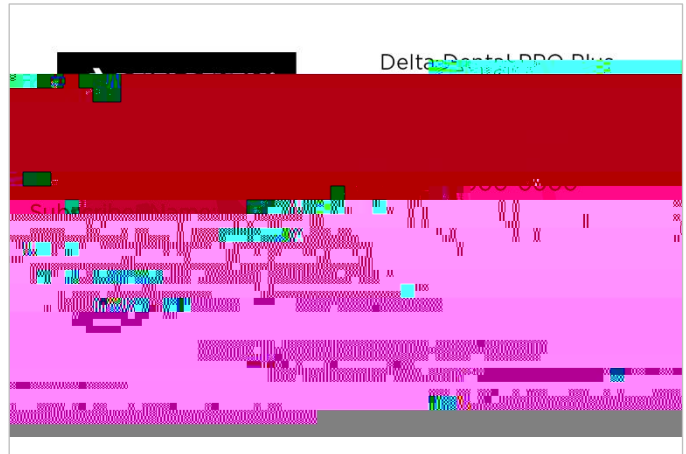

Visit DeltaDentalVA.com to learn more or to download an enrollment form.

Coverage is available for:

- The enrollee and their spouse.
- Full-time students can be covered for one month when they reach age 26 (the “limiting age”).

You may select the dentist of your choice. However, to get the most from your coverage and to make sure your dentist is a participant in the network listed at the top of your Delta Dental ID card, visit DeltaDentalVA.com for a list of participating dentists. For out-of-network dentists, the services you receive may be subject to a higher out-of-pocket cost. Delta Dental PPO network dentists agree to discount their fees and submit claims on your behalf and not bill you for the difference. Visit DeltaDentalVA.com to find a participating dentist in your area.

If you visit an out-of-network dentist, Delta Dental will pay its portion of the bill and you are responsible for any coinsurance and deductible (if applicable), as well as the difference between the nonparticipating dentist's charge and Delta Dental's allowed amount. Payment will be made to you unless you have opted for direct billing.

This fact sheet is a brief description of dental services covered under your plan and is not intended to serve as an estimate of coverage. If you have questions about specific benefits or limitations under your plan, call Delta Dental's Benefit Services at 800.237.6060 or visit DeltaDentalVA.com/members to register for an account.
